

**Achieve
More™**

Through Every Step of the Specialty Insurance Lifecycle

Where Agility Meets Opportunity

Test new product concepts faster with flexible tools and seamless digital experiences

- Accelerate go-to-market plans to pilot new coverages, adapt rating logic, and policy documentation using low-code/no-code configuration tools.
- Support policyholder and distribution partner expansion and self-service capabilities, through ISI Portal or through existing digital channels via ISI Connect.
- Lower total cost of ownership while preserving flexibility by leveraging our proven specialty insurance expertise that bridges InsurTech gaps.

Precision Risk Management for Niche and Emerging Markets

Enhance risk selection and control claims costs for high-severity, low frequency exposures

- Refine underwriting decisions with tools that transform unique data points into exposure and risk insights that are further powered by ISI AI.
- Improve claims accuracy with automated validation, prior exposure tracking, and specialized workflows that address complex recoveries and unique triggers common in niche lines.
- Streamline reinsurance workflows to support tailored risk transfer, improve recoveries, and optimize cash flow.

Enhance Efficiency for Specialized Workflows

Accelerate intake, approvals, and manage complex risks within a unified system

- Speed up quote turnaround and reduce manual effort by using ISI AI to extract submission data, apply underwriting guidelines, and route tasks and approvals across your underwriting team.
- Manage complex accounts with configurable policy structures that support layered policies, shared limits, and specialty endorsements within unified workflows.
- Automate mid-term adjustments, renewals, and endorsements at scale to reduce manual effort, maintain accuracy, and accelerate turnaround times.

Clarity that Drives Actionable Decisions

Empower every function with connected insights for strategic decision making

- Gain a real-time, company-wide view of performance by unifying policy, billing, claims, accounting, and reinsurance data.
- Build real-time dashboards to support trend analysis, board reporting, and ongoing operational performance with ISI Core Analytics.
- Integrate with third-party legal spend, risk scoring, and payment solutions to accelerate customer responsiveness while enabling proactive cost management and pricing.

Through Every Step of the Specialty Insurance Lifecycle

Achieve Business Outcomes Faster

Experience a proven path from implementation to impact

- Accelerate time-to-value with a streamlined implementation process that minimizes disruption.
- Achieve long-term budget and support certainty, without the overhead of maintaining systems in-house.
- Leverage a team that understands specialty insurance complexity across underwriting, claims, and finance.

Accelerate Submission Intake and Underwriting Decisions with Purpose-Built AI

- Extract and structure submission data from emails, portals, and supporting applications to reduce manual effort, and improve review-to-quote service levels for distribution partners and new customers.
- Produce insights based on insurer-defined guidelines, risk appetite, and targeted web searches of applicants.
- Maintain oversight with an underwriter-in-the-loop review process to validate AI outputs, and improve data quality for downstream claims, accounting and reinsurance use.

Expand Digital Services and Strengthen Every Connection

- Reduce service inquiries and improve insured and broker satisfaction by enabling self-service access to policies, documents, claims reporting and all related communications.
- Optionally extend the portal to offer quoting, policy issuance, and renewal management.

Our Specialty Lines Customers

**Let's set up a meeting to better understand your unique needs
and how we can accelerate results with minimal disruption.**
